

GATEMASTER

Weld in Deadlock

Specification Sheet
No.151

- Stainless steel deadbolt which moves 30mm with one turn of the key
- Deadbolt is adjustable in length for precise fitting on site
- Lock case is made from 2.5mm steel
- 4 different widths to suit different box section sizes

Product Options

Four lockcase widths available,

SWD1630	30mm wide
SWD1640	40mm wide
SWD1650	50mm wide
SWD1660	60mm wide

Installation

Weld the lockcase to the gate and galvanise or paint as part of the gate. Fit the lock and Eurocylinder into the lockcase and secure with screws.

Maintenance

Every 2 months - Lubricate latchbolt with light oil.
Annually – Dismantle lock and spray mechanism inside with light oil
