

HIGH SECURITY DEADLOCK KIT

Specification Sheet / 070

- G** This kit is ideal for use on double gates or for extra security on single gates.
- G** The lockplate, keepset and deadlock are fitted to one gate and the keep plate welded to the other.
- G** In use, the keep plate is captured in the slot by the deadlock and prevents the gates being forced apart.
- G** Comes as a kit with case and a 5 lever deadlock.

PRODUCT DETAILS

Product code:	Description:
5GK	High security deadlock kit, with case and 5 lever deadlock

Lock size	140 x 115 x 31mm
Keep size	70 x 40 x 5mm

INSTALLATION

1. Cut out a section of the box section in the gate.
2. Weld in the deadlock case in its place.
3. The keep is then welded onto the other gate or gate post, ensuring that when closed, the keep is captured in the slot in the case.
