

DIGITAL LOCK CASE WITH SECURITY KEEP

SPECIFICATION
SHEET

/ 086

G This lock case is designed for use with our Single Keypads (code SK) or Double keypads (code DK). Order the digital keypads separately.

G Designed for extra security on single gates, or for use on double gates.

G The keep plate is captured between the lock case and the security keep and prevents the gate being forced apart.

PRODUCT DETAILS

Product code:	Description:
DLCK30	For 30mm gate frame
DLCK40	For 40mm gate frame
DLCK50	For 50mm gate frame

Material: Steel

Keypads to order separately.

INSTALLATION

1. Weld the lock case into the gate and galvanize or paint as part of the gate.
2. Weld the keep to the gate post, or to the second gate. Then simply fit the keypads to the lock case.

3. **MAINTENANCE** Lubricate keypads regularly.
